Understanding Scientific Journal Submission and Publication

This course provides an overview of journal submission, including the types and steps of submissions, as well as effective pre- and post-submission communication to help participants navigate publication successfully.

Format:
Bespoke training

CPD:
1.5 hours for your records (depending on your requirements)

Certificate of completion

Overview

This course provides a thorough overview of the journal submission process, guiding participants through the different types of journal submissions and the essential steps involved in preparing and submitting a manuscript. Participants will learn about the key documents required for submission, including cover letters and supplementary materials, ensuring a complete and professional application. Additionally, the course addresses effective communication with journals both before and after submission, offering strategies for managing revisions, responding to reviewers' feedback, and navigating the publication process with confidence.

Benefits of attending

At the end of this workshop, attendees will be able to:

- **Understand** the types of journal submissions
- **Prepare** a manuscript in line with journal guidelines and navigate the submission process confidently
- **Communicate** professionally with journal editors and reviewers during and after the submission process

Who should attend?

- Early-career researchers and academicians looking to publish their research in reputable scientific journals
- Graduate and postgraduate students aiming to understand the academic publication process
- Research assistants, lab members, and academic staff involved in manuscript writing and submissions
- Science professionals, technical writers, and consultants seeking to enhance their knowledge of scholarly publishing practices
- Anyone interested in developing skills for selecting appropriate journals and navigating the publication process efficiently

Run this programme in-house for your whole team

Coming to IPI Academy for your in-house training provides an all-inclusive service which gives you access to a wide variety of content, learning platforms and delivery mechanisms as well as your own personal training adviser who will work with you from the initial enquiry through to feedback and follow-up after the programme.

With over 600 trainers, all practitioners and experts across a huge range of fields, we can provide the training you need, where you need it, when you need it, and at a price which suits your budget. Our approach to tailored learning and development consists of designing and delivering the appropriate solution for each client.

For your FREE consultation and to find out more about how we can work with you to solve your training needs, please contact our training advisers:
