Effective Change Management in Pharma

Master pharmaceutical change control processes in just 1 hour. Learn GxP compliance, change categories, and regulatory requirements for quality professionals.

Format:
Bespoke training

CPD:
1 hours for your records (depending on your requirements)

Certificate of completion

Course overview

Managing change control is a crucial element of the pharmaceutical quality management system, as it can impact product quality or regulatory filings. Changes made during pharmaceutical manufacturing and supply operations must be effectively controlled and documented to ensure that their impact, even if minor, is fully understood and addressed.

Maintaining compliance with GxP requirements, change control helps keep processes and systems in a validated state. An effective change control system also ensures consistency in products and services for consumers while demonstrating commitment to regulatory agencies.

This course will explore the crucial steps involved in effectively controlling changes during pharmaceutical manufacturing and supply operations.

Benefits of attending

- **Expand** your knowledge of change management in pharmaceutical industry
- **Understand** the different categories of changes with examples of pharmaceutical manufacturing and supply operations
- **Master** how to effectively manage and document a change
- **Get up to date** with industry best practices and regulatory requirements for change management

Who should attend

This course is ideal for professionals in the following industries:

- Pharma
- Biotech
- Medical Devices
- Life Sciences (especially those handling technical changes)

Additionally, it is well-suited for professionals in these industries who want to understand the fundamentals of change control and its impact on products and business. It is also beneficial for anyone interested in staying updated on the latest regulations and industry trends affecting pharmaceutical change management.

Run this programme in-house for your whole team

Coming to IPI Academy for your in-house training provides an all-inclusive service which gives you access to a wide variety of content, learning platforms and delivery mechanisms as well as your own personal training adviser who will work with you from the initial enquiry through to feedback and follow-up after the programme.

With over 600 trainers, all practitioners and experts across a huge range of fields, we can provide the training you need, where you need it, when you need it, and at a price which suits your budget. Our approach to tailored learning and development consists of designing and delivering the appropriate solution for each client.

For your FREE consultation and to find out more about how we can work with you to solve your training needs, please contact our training advisers:
