Signal Detection: A Comprehensive Introduction

A comprehensive introductory guide to signal detection in pharmacovigilance, covering its history, regulations, processes, and safety assessments.

Format:
Bespoke training

CPD:
6 hours for your records (depending on your requirements)

Certificate of completion

Course overview

This comprehensive one-day course provides an in-depth introduction to signal detection in pharmacovigilance. Participants will explore the history, regulatory requirements, and practical processes involved in detecting, validating, and acting upon safety signals. Through expert-led discussions and real-world case studies, attendees will gain a foundational understanding of how signal detection supports patient safety and regulatory compliance.

Benefits of attending

- **Understand** the fundamentals of signal detection in pharmacovigilance
- **Learn** global regulatory requirements for signal detection across drug development stages
- **Explore** key safety analyses, validation, and risk assessment processes
- **Discuss** safety review cycles, urgent signals, and labelling updates
- **Hear** how to assess benefit-risk and respond to safety concerns effectively
- **Participate** in discussions to apply learning to real-world scenarios

Who should attend?

Professionals working within these industries, who want a comprehensive introduction, will benefit from this engaging course:

- Clinical
- Pharmacovigilance
- Regulatory

Run this programme in-house for your whole team

Coming to IPI Academy for your in-house training provides an all-inclusive service which gives you access to a wide variety of content, learning platforms and delivery mechanisms as well as your own personal training adviser who will work with you from the initial enquiry through to feedback and follow-up after the programme.

With over 600 trainers, all practitioners and experts across a huge range of fields, we can provide the training you need, where you need it, when you need it, and at a price which suits your budget. Our approach to tailored learning and development consists of designing and delivering the appropriate solution for each client.

For your FREE consultation and to find out more about how we can work with you to solve your training needs, please contact our training advisers:
